A native Floridian with more than 25 years of award-winning interior design experience, Dawn Causa, owner of Causa Design Group, is known for her ability to bring a creative and pragmatic understanding of design to every project. With a deep breadth of knowledge in many design styles—from contemporary to traditional to eclectic—Causa draws from her distinct inspirations, and through a hands-on approach, creates unique spaces designed to suit each individual's lifestyle. With a portfolio from numerous locations, Causa's designs have mass appeal and have been featured in both television design broadcasts and design periodicals.

1. How do you think your client's would characterize you?

To quote one of my clients: "Dawn is committed to the perfection of the final result and is an experienced designer who can interpret the client's wishes in all genres."

2. How do you define a successful project?

To me, success is all about client satisfaction, so the best measure of success is the size of smile on my client's face at the final reveal.

3. Who has most influenced your work?

My clients inspire me. I view each job as a blank canvas, and my client's inspiration becomes the picture I paint.

4. What is one thing your clients would be shocked to know about you?

I was a dancer and instructor for 14 years with plans to become a Radio City Rockette in New York City.

5. What is your most prized possession?

My family. Tangible things come and go, but family is forever. Family is your legacy.

"Simplicity is the ultimate form of sophistication."

-Leonardo Da Vinci

Fashion is inspiration. >

▲ At the stone yard, I'm happier than a kid in the candy store. Mother Nature at its best!
